

Online Classes

Physics is learning of concepts with theoretical and experimental verification.

When distance varies with time, speed is obtained.

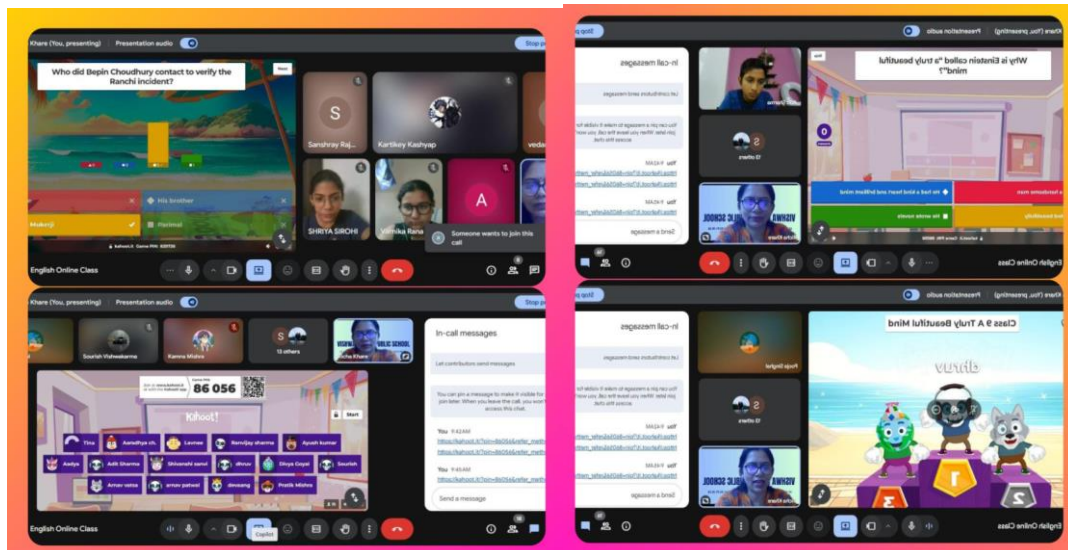

A graphical representation of D-t graph ✓ was done in online classes to understand the concept.

Students were encouraged to draw the graph using graph paper .

The learning objectives are to enhance the concepts as well as correlation between Science and maths.

Our **LKG students** explored the beauty of nature through a fun and engaging Handprint Tree Activity. With their tiny, colorful handprints, they created a vibrant tree symbolizing unity, growth, and love for the environment. A joyful way to blend creativity with learning! 🌳👏👐

Where screens turn into smiles and learning feels like play!

Online classes at Vishwa Bharti Public School, Ghaziabad – a place where curiosity, creativity and fun bloom together!

English turned into a thrilling game zone as Classes VIII–X battled it out on Kahoot! ⚡
 Online classes became an opportunity to learn, play and shine as buzzing answers, quick minds and big smiles made learning super fun and super fast! 🌟
 Our champs proved: Learning is the real game and they're here to play! 🏆
