

The morning assembly held on 09.05.25 was dedicated to the observance of significant occasion—National Technology Day, commemorating India's achievements in science and technology. National Technology Day, celebrated every year on May 11 to commemorate India's successful nuclear test in 1998 at Pokhran. A student delivered a speech on the significance of the day and how it honors the contributions of scientists, engineers, and technologists. Key achievements in space, nuclear energy, and digital India initiatives were highlighted. The assembly concluded with a reflection on how science enrich our lives through innovation. The principal Ms. Dimple Puri addressed the assembly, encouraging students to embrace technology as an inseparable part of life.
