

CBSE Workshop on Artificial Intelligence

Vishwa Bharti Public School Ghaziabad recently hosted an enriching CBSE AI Workshop led by Mr. Karamjeet Singh Sodhi, an international educator and CBSE Master Trainer, and Mrs. Deepika Tangri, PGT Computer Science and AI.

The sessions provided powerful insights into leveraging Artificial Intelligence for creative, inclusive, and future-ready classrooms. Teachers engaged in hands-on exploration of AI tools, innovative pedagogies, and strategies to nurture curiosity and problem-solving among students.

We extend our heartfelt thanks to our inspiring resource persons and to CBSE for empowering us to reimagine learning through AI.

We also sincerely thank our school management and our Principal, Mrs. Dimple Puri, for fostering a culture of sharing and continuous learning within the school.
